

What we do?

We create and facilitates brain-based learning and development experiences for clinical research professionals. We create engagement so that learning sticks and spreads in your organization.

Who we work with?

- Academic Research Centres/Centers
- The Pharmaceutical and Biotechnology Industries
- Contract Research Organizations

Sample Workshops:

- **Leading Practices in Good Clinical Practice**
- **Hot Topics in Good Clinical Practice (a great annual refresher)**
- **The Fundamentals of Clinical Trial Site Management**
- **Adverse Event Reporting and Management**
- **Audit and Process Improvement Mastery**
- **A How-to Guide for Clinical Research Project Management**
- **Negotiation Skills for Clinical Research Professionals**

What you get from our workshops?

- A targeted workshop, based on the leading learning practices with interactive exercises and scenarios that simulate the real world for your organizations immediate application
- Complementary tools for participants and the management team provided prior to and after the workshop to ensure that everyone gets the most out of your program
- Professional certificates for each workshop participant participant*

*To demonstrate ongoing training during audits/inspections. Workshops can be used for Continuing Education Credit for the Society of Clinical Research Associates (SoCRA - www.SoCRA.org)

About Natalie Currie

Natalie Currie is an Experience Designer, Facilitator and Founder of **Natalie Currie, Clinical Research Consulting Inc.**, a learning and development organization dedicated to Contract Research Organizations, Academic Research Centres and the Pharmaceutical Industry. Harnessing her 19 years of broad based clinical research experience Natalie is a speaker and facilitator in Canada and the United States.

Natalie's breadth of roles has spanned from Clinical Research Coordinator, Clinical Research Associate, Clinical Research Project Manager and management roles in Government and Health Economics. She has worked at the Addiction Research Foundation (now the Centre for Addiction and Mental Health [CAMH]) and Janssen-Ortho Inc. (a division of Johnson and Johnson). Natalie has coordinated a Phase I study and participated on international pivotal Phase III study project teams and led Canadian Phase IIIb-IV studies.

Natalie is a member of the Society of Clinical Research Professionals, the Canadian Society of Training and Development and the American Society of Training and Development.

What participants are saying about our workshops?

This was one of the best educational webinars I've attend - and I've attended quite a few. The speaker was excellent and interesting. I found the information presented to be very thought provoking. Thank you very much! Research Coordinator

I wish I had taken the GCP workshop sooner! Qualified Investigator

Interactive, dynamic, concise and entertaining. Clinical Research Coordinator

Excellent experience - learned a lot - very interactive and practical. Qualified Investigator

I appreciated the break out groups that allowed us to apply what had been presented. I sincerely appreciate the project management tools that were shared. After the workshop, I was able to implement much of what I learned. Project Manager

A refreshing departure from the standard GCP workshop. Clinical Research Director
